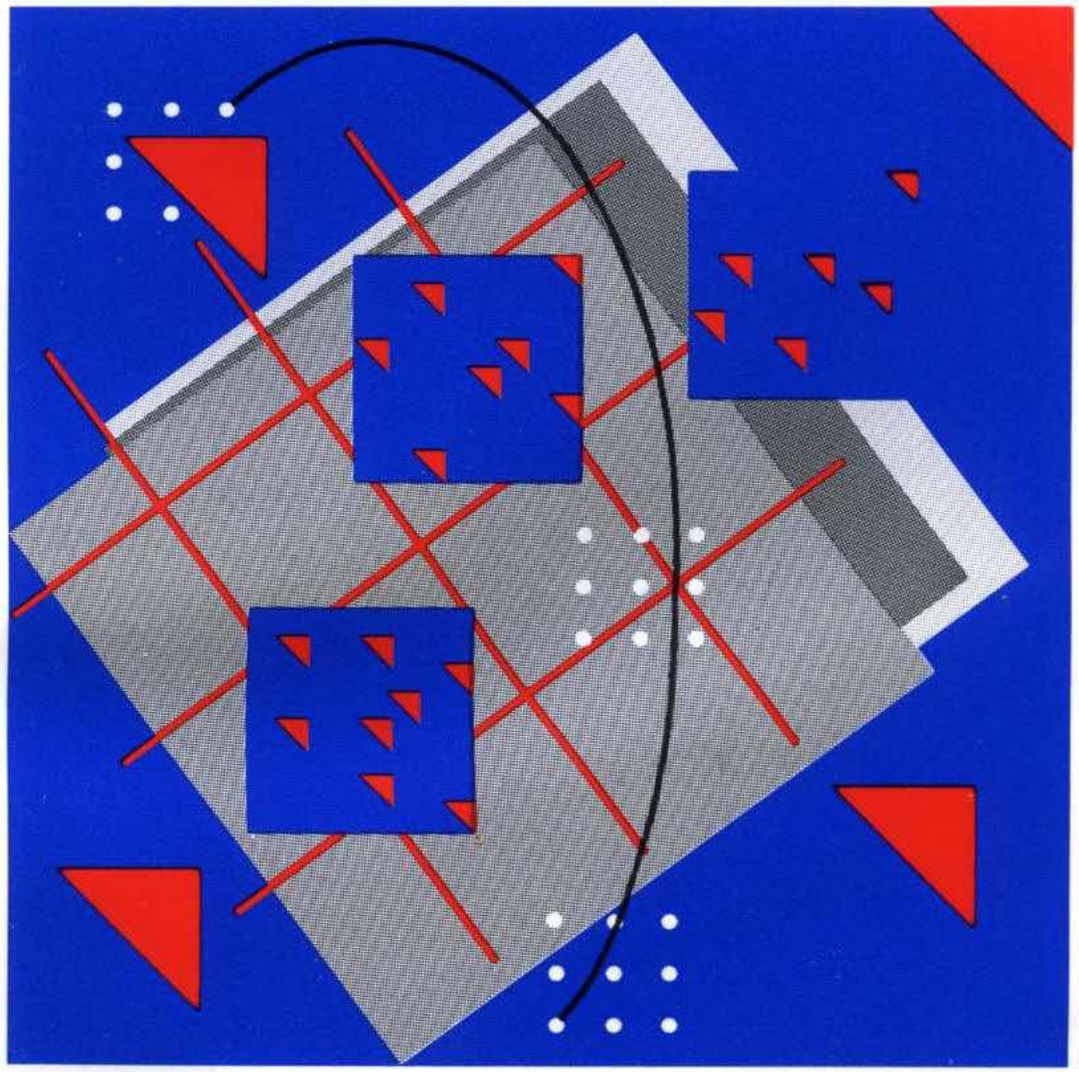
IBM Networking Systems Softcopy Collection Kit

Collection Kit 2



SK2T-6012-01

Note!

Before using this information and the products it supports, be sure to read the general information in "Notices" on page vi.

Second Edition (September 1992)

This booklet applies to the IBM* Online Library IBM Networking System Softcopy Collection Kit, SK2T-6012-01.

Requests for IBM* publications and additional copies of this CD-ROM should be made through your IBM representative or the IBM branch serving your locality. If you request CD-ROMs from the following address, your order will be delayed because CD-ROMs are not stocked there.

Reader's comment forms are provided at the end of book files on this CD-ROM. If you are unable to access this information, comments may be addressed to IBM Corporation, Department E15/Building 500, P.O. Box 12195, Research Triangle Park, NC 27709, United States of America. You may optionally fax your comments to IBM using fax number (United States and Canada), 1 + 800 + 227-5088.

IBM may use or distribute whatever information you supply in any way it believes appropriate without incurring any obligation to you.

Notices

References in this booklet and in the libraries contained on this CD-ROM, to IBM products, programs, or services do not imply that IBM intends to make these available in all countries in which IBM operates. Any reference to an IBM product, program, or service is not intended to state or imply that only IBM's product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any of IBM's intellectual property rights may be used instead. Evaluation and verification of operation in conjunction with other products, except those expressly designated by IBM, is the user's responsibility.

IBM may have patents or pending patent applications covering subject matter in this document. The furnishing of this booklet and of the information contained on this CD-ROM does not give you any license to these patents. You can send license inquiries, in writing, to the IBM Director of Commercial Relations, IBM Corporation, Purchase, NY 10577.

Using and Distributing the IBM Library Reader

The terms and conditions for using and distributing the IBM Library Reader are stated in a file called PLALRENG.AGR on this CD-ROM. The file is in ASCII format and can be printed from your personal computer. The following examples assumes that your CD-ROM drive letter is d. If your CD-ROM drive is not d, replace the letter in the example with the letter you are using. To print this file, insert this CD-ROM into your CD-ROM drive and use the PRINT command with the drive letter of your CD-ROM drive. For example: `print d:\plalreng.agr`

© Copyright IBM Corp. 1992

Copying and Distributing Softcopy Files

The terms and conditions for using softcopy books are stated in a file called BOOKENG.AGR on this CD-ROM. Before using the books on this CD-ROM, you must first read and agree to the terms and conditions specified in this file. The file is in ASCII format and can be displayed or printed from your personal computer.

About This CD-ROM

The IBM Networking Systems Softcopy Collection Kit contains 34 communications products libraries. This allows you to put a large number of publications online without the inconvenience of handling individual product libraries on many CD-ROMs and tapes.

Many of the libraries on this CD-ROM were previously included in the *IBM Online Library: Starter Kit*, **SK2T-2071**. Books identified as changed on this CD-ROM replace and make obsolete versions of these books contained on SK2T-2071, or on other CD-ROMs or tapes dated prior to the IBM Networking Systems Softcopy Collection Kit.

This CD-ROM contains the following files:

- Most of the unlicensed publications for each communications product on the CD-ROM
- A pre-built bookshelf and a bookshelf search index for the entire set of communications products books on this CD-ROM, in addition to bookshelves and bookshelf search indexes for each product library, to enable quick searches of the books contained on this CD-ROM
- A set of reference publications for using the Library Readers and the online library
- README, which is an expanded version of this booklet in ASCII format. The expanded version lists all of the softcopy books in each product library on the CD-ROM.

© Copyright IBM Corp. 1992

Notes:

1. All books on this CD-ROM appear in the English language.
2. The book files on this CD-ROM were created with BookManager* BUILD 1.2.0. You need either BookManager READ Version 1.2 (or higher) or the IBM Library Readers furnished on this CD-ROM to view them.

This CD-ROM also contains the following items:

- The IBM SAA* BookManager Library Reader/2 and IBM BookManager Library Reader/DOS, which are *limited* editions of the IBM BookManager READ/2 and READ/DOS licensed programs. The IBM Library Readers let you read and search any IBM book specifically enabled by IBM for the IBM Library Readers. Books distributed on CD-ROM by IBM beginning with the *IBM Online Library Starter Kit* will be enabled for the IBM Library Readers.
- The IBM Online Library Installation Program to install the IBM Library Readers, set up the BookManager or IBM Library book and bookshelf search path, and to write OS/2 Group entries
- The IBM Bookshelf Upload Program that lets you upload individual bookshelves of IBM books to an MVS or VM host from any host-attached PS/2* workstation
- The IBM Softcopy Receiver Tool that runs on an MVS or VM host in conjunction with the IBM S/370 and S/390 Optical Media Attach/2 to transfer to a host all or parts on the contents of a CD-ROM or tape from a channel-attached PS/2 workstation at high speed.

Organization of Files on This CD-ROM

The contents of this CD-ROM are organized into: a root directory containing the text files BOOKENG.AGR, PLALRENG.AGR, and README; a subdirectory \shelves containing all the bookshelf files; and a subdirectory \books containing all the book and search index files.

Getting Started

To use these softcopy books on a personal computer or a PS/2 computer equipped with a CD-ROM disc drive (or attached to a network equipped with a CD-ROM disc drive), you must use one of the following: BookManager READ/DOS (Program No. 5601-453), BookManager READ/2 (Program No. 5601-454), or IBM Library Reader (provided with this CD-ROM).

To use the softcopy books on an MVS system, you must upload the files from this CD-ROM to MVS and install BookManager READ/MVS (Program No. 5695-046). To use the softcopy books on a VM system, you must upload the files from this CD-ROM to VM and install BookManager READ/VM (Program No. 5684-062).

For information about software and hardware requirements for OS/2* and DOS workstations and directions for transferring the contents of CD-ROMs to a host, see *IBM Online Libraries: Softcopy Collection Kit User's Guide*, GC28-1700, and *IBM Online Library Getting Started*, included on this CD-ROM (filename EZ201MST).

For more information on the BookManager READ programs or on determining the appropriate CD-ROM drive for your system, contact your IBM representative or the IBM branch office serving your locality.

Contents of the IBM Networking Systems Collection Kit

This CD-ROM contains pre-built books, a bookshelf for each product library (some books are included in more than one product library), and bookshelf search indexes. The main bookshelf, **C01ALL01.BKS**, lists all the books on this CD-ROM.

To select a book from the collection, we recommend you list the main bookshelf, list all the bookshelves, or list a specific bookshelf and select the book from this list.

Note: You can create a customized bookshelf that contains only the books you use most frequently. For information on creating a customized bookshelf, refer to *Softcopy Collection Kit User's Guide*, GC28-1700 (included on this CD-ROM, filename AB0HEV00), or the documentation you received with your BookManager program.

What Is New In This Collection Kit

This collection kit replaces the IBM Networking Systems Softcopy Collection Kit 1, SK2T-6012-00. All of the product libraries and softcopy books contained on Kit 1 are also on this kit.

In addition Kit 2 contains the following products:

- CICS Automation Option V1R1
- IBM SAA Data Trade MVS/ESA V1
- GraphicsView/2 V1
- Host Command Facility (VTAM) V2
- IBM Network Configuration Application/MVS
- IBM Automation Option V1R1
- NCP V6R1
- Networking Services/DOS V1

© Copyright IBM Corp. 1992

- NRF V1R7
- NTO V1R8
- OSI File Services/400 R1
- TPNS V3R3
- X.25 NPSI V3R5

Installing or Updating the IBM Online Library

The Networking Systems Softcopy Collection Kit CD-ROM includes an installation program to help you set up an IBM Online Library. The installation program installs the IBM Library Reader for the first time on your hard disk and updates your system configuration files to point to the IBM books in your first collection. If you already have the IBM Library Reader installed or if you have BookManager READ/2 or READ/DOS, and you are adding a new collection of IBM books, the installation program will update your configuration files to point to the new collection.

Note: If you want to install both the OS/2 and DOS versions of the IBM Library Reader on your workstation, first complete the preparations and installation procedure for OS/2, then return here, and follow these procedures for installing the DOS version.

If you are using MicroSoft Windows**, you must exit Windows** before executing the DOS IBM Library Reader installation program.

For information on how to transfer the IBM Library Reader to workstations without CD-ROM drives, see *IBM Online Library: Getting Started OS/2 and DOS Editions*, GC23-0545.

© Copyright IBM Corp. 1992

Installing or Updating from a CD-ROM

The IBM Library Reader installation program installs the IBM Library Reader on your hard disk and updates your configuration files to point to the IBM books in the collection. To run the install program, do the following:

1. Insert the Networking Systems CD-ROM in the drive by doing one of the following:
   - If you are using a CD-ROM drive that requires a caddy, such as the IBM 3510, do the following:
     a. Make sure that the CD-ROM drive is turned on.
     b. Open the CD-ROM caddy by squeezing the tabs on each corner of one end of the caddy and lifting the cover.
     c. Place the CD-ROM in the caddy so that the printing shows through the clear plastic cover.
     d. Close the cover. Make sure that the CD-ROM is not caught under the cover.
     e. With the cover facing up, insert the caddy into the CD-ROM drive. The arrow on the caddy points into the drive.
   - If you are using a CD-ROM drive that does not require a caddy, simply insert the CD-ROM into the drive, usually with the printing up.
   - If you are not sure how to use your CD-ROM drive, refer to the instruction manual that came with it to learn how to insert CD-ROMs correctly.

2. Go to an OS/2 or DOS command prompt to install the OS/2 or DOS version of IBM Library Reader respectively. If you want to install both versions, follow these

© Copyright IBM Corp. 1992

instructions to install the OS/2 version first, then return here and install the DOS/version.

3 Switch to the drive letter of the CD-ROM drive that contains the IBM Library Reader program.

For example, if your CD-ROM drive is `D`, type:

```
d:
```

4 Change to the directory on the CD-ROM that contains the IBM Library Reader program. Type:

```
cd \ez2inst
```

5 To start the IBM Library Reader installation program, type:

```
install
```

Panel 1 should appear on your screen

If you get this message:

```
SYS1059: The system cannot execute the specified program.
```

and you are using OS/2 Version 1.3 or lower, you may not have the most recent CD-ROM device driver. Go to step 1 in "Installing the Latest IBM CD-ROM Driver on an OS/2 Workstation" on page 26 and follow those instructions.

6 After reading panel 1, press PgDn.

7 On Panel 2, make a selection that applies to your workstation. Type the number of your selection if you need to, and press PgDn to continue.

8 On Panel 3, do the following:

a. Type the drive letters for any drives on which you plan to put IBM books or collections from the IBM Online Library. The drives you can select from are listed at the top of the screen. You can include your CD-ROM drives, your hard disks, or your diskette drives.

   If you need help with this item, move the cursor to it, and press F1 for more information.

b. Make sure that the directory named is correct.

   If you need help with this item, move the cursor to it, and press F1 for more information.

c. Make sure that the configuration file or profile named is correct.

   If you need help with this item, move the cursor to it, and press F1 for more information.

d. When you are satisfied that this panel is correct, press F10 to install the IBM Library Reader or to update your IBM Library Reader or BookManager READ.

9 When the installation program is done, the instructions on the screen will tell you either to shut down and restart your system or to start the IBM Library Reader or BookManager READ.

If you do not need to shut down your system, you can continue with "Opening the IBM Online Library" on page 24.

If you must shut down and restart your system, do one of the following:

For OS/2 Version 1.3:

a. Go to your Desktop Manager window, and on the action bar, select Desktop.

b. In the window that appears, select Shutdown....

c. In the Shutdown window that appears, select Shutdown.

d. When the shutdown is complete, restart your system by pressing Ctrl + Alt + Del.

e. When your system is running again, continue with "Opening the IBM Online Library" on page 24.

For OS/2 Version 2.0:

a. Click on your desktop (an unoccupied part of the screen).

b. In the window that appears, select Shutdown

c. When the shutdown is complete, restart your system by pressing Ctrl + Alt + Del.

d. When your system is running again, continue with "Opening the IBM Online Library" on page 24.

For DOS:

a. Press Ctrl + Alt + Del.

b. When your system is running again, continue with "Opening the IBM Online Library" on page 24.

Opening the IBM Online Library

After you finish with the IBM Library Reader installation program, you are ready to open the IBM Online Library and use the IBM Library Reader or BookManager READ to list the bookshelves on the CD-ROM and select and view softcopy books.

Listing All Bookshelves When You Open the IBM Online Library

1 Open the IBM Online Library.

For Version 1.3 or Version 2.0 of OS/2:

To start the IBM Library Reader/2, go to an OS/2 command prompt, and type:

```
readibm /ds
```

To start BookManager READ/2, go to an OS/2 command prompt, and type:

```
bookmgr /s
```

For OS/2 Version 1.3 only:

Go to your Desktop Manager window and select IBM Online Library. The Group - IBM Online Library window appears. In that window select the library you want.

For OS/2 Version 2.0 only:

Open the IBM Online Library folder and select the library you want.

For DOS:

To start the IBM Library Reader/DOS, go to a DOS command prompt, and type:

```
readibm *.bks
```

© Copyright IBM Corp. 1992

To start BookManager READ/DOS, go to a DOS command prompt, and type:

```
bookmgr *.bks
```

2 When the IBM Library Reader or BookManager READ starts, it displays a WELCOME panel.

Press ENTER to remove the WELCOME panel from the screen, and you will see a list of all the bookshelves that are available to you.

The list of IBM bookshelves may include:

- All the IBM bookshelves on any other drives to which you have access
- All your personal bookshelves, if you have customized the IBM Online Library and created your own personal bookshelves on your hard disk

  Note: Depending on how you customized your bookshelves, the list may only show your personal bookshelves. For more information on customizing bookshelves, see the booklet *IBM Online Library: Distributing and Customizing the Library* in bookshelf AB0RWT01.

3 You are now ready to begin viewing the books on this CD-ROM.

Installing the Latest IBM CD-ROM Driver on an OS/2 Workstation

If you received the following message when you started the IBM Library Reader installation program,

```
SYS1059: The system cannot execute the specified program.
```

You are probably using OS/2 Version 1.3 or lower, and have an IBM CDFS.IFSCD-ROM device driver dated earlier than 11-27-90. You need to update this device driver with the one provided on this CD-ROM.

Note: OS/2 Version 2.0 users already have an up-to-date CDFS.IFS file and should not do this.

Follow these instructions:

1. Look in your CONFIG.SYS file for the `IFS=` statement:

   ```
   IFS=C:\OS2\CDFS.IFS
   ```

   This statement tells you the path to your CD-ROM driver. In this example, the driver named `CDFS.IFS` is on the `C` hard disk in the `\OS2` directory.

2. Verify that the CDFS.IFS file on your hard disk is older than 11-27-90. Type:

   ```
   dir c:\os2\cdfs.ifs
   ```

3. If the date of the CDFS.IFS file on your hard disk is older than 11-27-90, copy it to a backup file. Type:

   ```
   copy c:\os2\cdfs.ifs c:\os2\cdfs.bak
   ```

4 Copy the new CDFS.IFS file from the CD-ROM to your hard disk. Type:

```
copy d:\ez2inst\cdfs.ifs c:\os2
```

5 Then shut down and restart your system by doing the following:

a. Go to your Desktop Manager window, and on the action bar, select Desktop.

b. In the window that appears, select Shutdown....

c. In the Shutdown window that appears, select Shutdown.

d. When the shutdown is complete, restart your system by pressing Ctrl-Alt-Del.

e. When your system is running again, go to "Installing or Updating from a CD-ROM" on page 20 and restart the IBM Library Reader installation program.

Questions, Problems, or Suggestions?

If you have a question, problem, or suggestion regarding the use of this CD-ROM or the information contained on it, please do one of the following:

- Within the United States, contact the IBM Support Center, 1+800+237-5511. Be prepared to provide your customer number (access code) and state either the product identifier "Softcopy Publications" or ask for the SCKIT service queue. Non-U.S. customers should contact IBM through their usual service channel.
- FAX your comments to IBM:
  (United States and Canada): 1+ 800+227-5088
- Mail your comments to:

  IBM Corporation
  Department E15
  P. O. Box 12195
  Research Triangle Park, NC 27709
- Print a reader's comment form from a softcopy book on this CD-ROM and FAX or mail it to IBM.

The electronic systems you can use and the ID's to send your comments to are:

IBM Mail Exchange	USIB2HPD at IBMMAIL
IBM Link	CIBMORCF at RALVM13
Internet	USIB2HPD@VNET.IBM.COM

When sending your comment, please reference the CD-ROM's order number (SK2T-6012-01), and if you would like a reply, include your name and address, and your phone or FAX number.

IBM may use or distribute whatever information you supply in any way it believes appropriate without incurring any obligation to you.
